

# Aluminium Advertising Flagpole (1m ARM)

## Description:

Pack consisting of a 6 metre high anodised aluminium flagpole, made up of 3 close-fitting aluminium segments, plus a 1 metre flag arm. With a diameter of 6.5 cm, this flagpole supports our advertising flags.

It has a triangular base with a hinged system that allows the structure to be folded.

The flagpole includes the following accessories:

- A 1 metre flag arm that allows the advertising flag to be mounted and displayed.
- Rotating system.
- Flagpole topper.
- Cleat.

Advertising flag not included.

## Technical Data Sheet

Feature	Description
<b>Materials</b>	Flagpole made of 2.5 mm-thick anodised aluminium. Made up of 3 close-fitting segments of anodised aluminium.
<b>Height</b>	6 m.
<b>Diámetro</b>	6,5 cm.
<b>Colour</b>	Mettalic matte grey.
<b>Weight</b>	Approx 20 kg.
<b>Flag (Not included)</b>	Flag not included. Recomendated flag: <ul style="list-style-type: none"><li>- Vertical Advertising flag</li></ul>
<b>Base (Included)</b>	Base included. Triangular base (25x25x25 cm) made of galvanised Steel with three 50cm bent bolts. It has a hinge for dismounting and folding.

This flagpole for advertising flags comes with the following accessories included in the price:

**Accessories(included)**

	<p><b>Cleat</b> Accessory for the hinged aluminium flagpole. This cleat allows the halyard to be coiled and tied to the flagpole, offering greater stability and support. Made of white polyethylene, the cleat has a total length of 8 cm and weighs approximately 25 g.</p>
	<p><b>Rotating system for Halyard</b> Accessory for the hinged aluminium flagpole. This rotating system for feeding the rope is made of polyamide and has a height of 28 cm and a weight of approx. 200 g.</p>
	<p><b>Flagpole topper</b> Elegant onion-shaped silver grey flagpole topper. Height: 17 cm. Diameter: 13 cm at its widest. Weight: around 200 g.</p>
	<p><b>Retainer ring</b> A polyamide retainer ring attaches to the flagpole. It has a hermetic closure thanks to its aluminium joint. The material prevents any noise arising from the ring tapping against the flagpole. The length of the retainer ring is 60 cm and its colour is transparent white. Weight: 40 g.</p>
	<p><b>Flag arm</b> Aluminium alloy segment that holds the flag upright at the top. Length: 1m. With a diameter of approximately 2 cm and a thickness of 1.8 mm. This flag arm ends in a White element.</p>

**Other**

For outdoor use.  
Assembly difficulty level: médium (less than approx. 15-20 minutes)
