*Mira 40*

**Mira 40, innovative and needful for deep cleaning action for any kind of floor. Not only a scrubber drier but a complete and multi-purpose system**

Working in full autonomy due to the lithium ion power technology this machine has a working capacity from 60 minute and 90 minute thanks to the "Eco mode" that allows to reduce the vacuum power of 33%, keeping an excellent suction capacity.

The suction capacity is one of the strong point of our scrubber drier: powerful vac motor together with Linatex form Midwest rubber, grant an excellent drying on all type of condition.

There is also the possibility to adjust the speed of brush motor for any differnt type of floor or you need to clean or any treatment you want to do.

The possibility to lift up the squeegee bar and to exclude the vac motor makes the machine comparable to a professional single disk machine.

Thanks to its specific weight due to the stainless steel chassis AISI 304, guaranteed against corrosion, and thanks above all to the quality components made in Italy, we guarantee reliability for 24 months.

The electronic circuit control all the motors and avoid overheating with the maximum yield, like a current limiter that optimize the motors.

Among the advantages of the system there is the possibility to use different type of brushes: PPL 0,3, PES and tynex but also pad holder able to be used with a wide assortment of pads for all kind of floor and dirt.

With a series of different type of special pads you can make different type of treatment on Marble, Granite, natural stone, PVC, terracotta, carpet etc.

With the combination of our cleaning trolley support we are sure to have created a full and complet cleaning system for all the hygienic and cleaning needs.

## Our details

# Mira 40

**EXCLUSIVE**  
Only in our machine double  
power (cable and battery)

With lithium battery

With multi-voltage cable  
90/240 volt 50/60 hertz

Mutlicleaning system with  
RECYCLED PLASTIC with stainless  
steel platform

Essential machine for deep  
cleaning in  
small room and  
full of obstacles

multi-voltage ventilated  
battery charger

New control panel  
with intuitive buttons

Adjustable suction power

All stainless steel Inox AISI 304 frame

WORKING WIDTH	410
WORKING CAPACITY (SQUARE METER PER HOURS)	500
POWERED: B= BATTERY	B 36 VOLT / 13 ah
