

How to Use The Beacon™

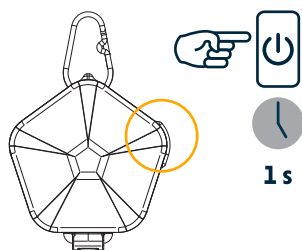

The Beacon safety light helps extend your adventures into the predawn hours before sunrise and the evening post-sunset glow by helping your furry trail companion stay seen.

Waterproof and USB-rechargeable, The Beacon offers three LED color options and three light modes.

POWER AND COLOR/LIGHT MODES

TURN ON/OFF

Hold down the power button for 1 second.

CHANGE COLORS AND LIGHT MODES

Press the power button to cycle through the colors and modes.

3 Color Options
Red, green, and blue.

ALWAYS ON

6 h

SLOW FLASH

12 h

FAST FLASH

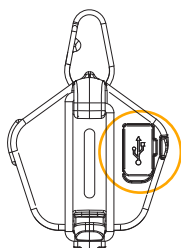

20 h

3 Light Modes for Each Color
Run times on a full charge vary for each mode.

GOOD TO KNOW

WATERPROOF

Rated to IPX7 – global standard for waterproof to 1 meter of water for 30 minutes

CE COMPLIANT

Compliant for lack of communication interference

ROHS COMPLIANT

Compliant for lack of heavy metals

- The Beacon powers on to the last color/mode it was set to
- If the silicone dust cover for the USB charging port comes off, The Beacon is still waterproof to IPX7
- Translucent shell exudes light in all directions
- Attach to collar, webbing, or light loop using the Quick Ring™ on the top or the Quick Clip™ wire gate on the back
- At end of life, The Beacon can be recycled at an electronics recycling center
- Made in China
